WORK EXPERIENCE

Syrah Global Uruguay

2021 - 2023

Responsible of the construction site and the hotel. This meant building the teams in each sector, as cleaning, maintenance, reception, administration. Taking care of the not operative management of the building site also meant all the buying, salaries, and projections along with the architect. The construction site finished and we structured a whole system to start the hotel. This meant a very dynamic, interesting and challenging work.

Own ventures

Capital Investments
